Every person carrying on any land-clearing, lumbering, industrial, engineering, or construction operation during the closed season in or within one-half mile of any forest or woodland or any slash or forest debris shall provide and maintain such fire-fighting equipment of a type satisfactory to the Forest Service as is hereinafter specified in these regulations.

#### REGULATION 2

##### *Tools Required*

Where a person carries on any of the operations specified in Regulation 1 above, it shall be the duty of such person to furnish and maintain such fire-fighting equipment as required in these regulations, as follows:—

- (a) *Engines, General.*—Where such person uses or operates an engine as a locomotive, logging-engine, or portable engine, such person shall maintain at or on such engine, ready and available for use, the following tools: Six 10-quart buckets, two hand-tank pumps of not less than 4-gallon capacity filled with water at all times, six shovels, three axes, three mattocks, or as an alternative, where a tank of water fitted with an outlet valve and containing not less than 400 gallons, and a pump, and not less than 500 feet of 1-inch discharge-hose or larger are provided, the complement of tools may be reduced to two buckets, two hand-tank pumps, two shovels, two axes, and two mattocks. All hand-tools to be maintained in a rack or box provided for the purpose on or adjacent to the machine.
- (b) *Stationary Internal-combustion Engines.*—Where a person is using or operating an internal-combustion logging or industrial engine in a stationary capacity, such person

shall maintain all the tools required as provided in clause (a) above, and in addition thereto shall supply and have available at or near such engine an open-end drum of not less than 45-gallon capacity full of water or the alternative water-supply as specified in clause (a) above, and chemical fire-extinguishers suitable for gas, oil, or grease fires of not less than the total rating of 1 gallon of liquid or 10 pounds of gas or 8 pounds of pressurized dry chemical fully charged and properly affixed to the engine aforesaid.

- (c) *Two or More Engines.*—Where such person operates two engines or more together as a unit, such person shall maintain one set of tools as described in clause (a) above at a location immediately available to such engines, and additionally shall maintain at each engine the equipment described in clause (b), except where the alternative water-supply is used, then the 45-gallon drums will not be required.
- (d) *Tractors and Logging-trucks.*—Where such person uses or operates an internal-combustion engine in a mobile capacity, such as a traction engine, tractor, or truck, engaged in the removal of forest products, such person shall have properly affixed on such vehicle chemical fire-extinguishers suitable for gas, oil, and grease fires of not less than a total rating of 2 quarts of liquid or 5 pounds of gas or 4 pounds of pressurized dry chemical fully charged and ready for use, and in addition thereto such person shall supply and carry on such vehicle one shovel and one axe, or one mattock, or one Pulaski tool.
